EIWA is a Design and Development Platform (Saas) company for the digitization of data and information in the agricultural sector.

**OUR PURPOSE**

Eiwa facilitates the generation and mobilization of agronomic knowledge through a digital data management platform.

**VISION:**

To be a leading company in innovation whose only limitation is the imagination of our customers and the final result: their satisfaction.

**MISSION:**

Eiwa seeks to accelerate the development and adoption of new agricultural solutions by keeping pace with global demand.

**VALUES:**

- The main thing is our CLIENTS
- We promote TEAMWORK
- We value PEOPLE
- GROWTH is in our DNA

In order to align the organization to comply with the guidelines detailed above, the management undertakes to allocate the necessary resources for the implementation, maintenance and continuous improvement of the effectiveness of this Quality Management System and compliance with the legal requirements applicable to the activity.

Customer satisfaction and continuous improvement stakeholders must and should be a constant challenge of all employees of the organization.
